

Firstfruits Proportional Giving Worksheet

This worksheet is designed to help you calculate how much to give based on a proportion (percentage) of your income.

1. The vertical column (left side of chart) lists examples of yearly income.
2. The horizontal (left to right across the top) lists a percentage of that - given for the year or given by the *week*.
3. You can use this chart to calculate the level of your giving now, or calculate how much to give as a percentage of your income.

Yearly Income	1% Year	1% Week	2% Year	2% Week	3% Year	3% Week	4% Year	4% Week	5% Year	5% Week	10% Year	10% Week
\$100	\$1.00	\$0.02	\$2.00	\$0.04	\$3.00	\$0.06	\$4.00	\$0.08	\$5.00	\$0.10	\$10.00	\$0.19
